Experience

10Times

Jan 2024 – Present

SDE-1

- [Whr.ai](#) :
 - Developed a dynamic and fully responsive landing page website using **Next.js**, following industry best practices to showcase new company products and ensure a seamless user experience across devices.
 - Optimized performance, accessibility, and responsiveness using **Next.js features** like Image Optimization and Code Splitting, achieving a **30% improvement** in overall load times and accessibility scores.
 - Improved **SEO performance** by implementing **server-side rendering (SSR)**, **meta tags**, **structured data**, and **lazy loading**
- [Dashboard - 10Times](#) :
 - Designed and developed a fully responsive, dynamic user dashboard for 10times, enhancing user interaction through modules like connections, messages, personalized calendar, event management, and settings customization.
 - Implemented advanced Next.js features such as Image Optimization and Code Splitting, resulting in a 70% improvement in load times and accessibility scores.
 - Boosted SEO performance to 95% (Lighthouse), significantly enhancing discoverability and user engagement.
- [Eventgtm : \(Event Intelligence\)](#) :
 - Led the design and build of the full onboarding process, making it easier and more user-friendly by following good UX/UI design practices.
 - Contributed significantly to the development and deployment of the MVP version of the application, ensuring timely and efficient delivery by leveraging Agile methodologies.
 - Enhanced application performance, achieving a **40% increase** in speed through meticulous code optimization and efficient resource management with **Next.js**, resulting in improved load times and user satisfaction.
- **Widget** :
 - Built customizable widgets using **Web Components** for seamless integration into external websites.
 - Applied modular and reusable code practices, cutting development effort for future features.
 - Designed responsive and visually appealing UI.
- [Eventeli : \(Event Intelligence\)](#) :
 - Developed and deployed the MVP version of the product, ensuring a robust and scalable architecture to support future enhancements and user growth.
 - Integrated **RESTful APIs** to enable seamless communication between frontend and backend systems, enhancing the application's functionality and user experience.
 - Collaborated closely with backend developers to ensure efficient data flow and real-time updates within the application using **React and Next.js**, improving overall application responsiveness and reliability.

Software Developer Trainee

- **E-Commerce Catalogue:**
 - Designed and developed a feature-rich E-Commerce Catalogue using **Spring Boot-Java** and **Angular**, incorporating dynamic product filtering options.
 - Implemented secure user authentication for Login and Registration processes through **REST API** integration.
- **Result Management System:**
 - Result Management System: Designed and developed a comprehensive system using **HTML, CSS, Node.js, Express.js, Bcrypt, JWT, Angular**, and **MySQL**.
 - Enhanced student information management with an efficient teacher login and registration system.
- **Library Management System:**
 - Created a Library Management System using **Spring Boot-Java** for REST APIs and **Spring MVC** for the frontend.
 - Demonstrated full-stack development skills, including database management using Hibernate and **MySQL**.

Extra-Curricular

- Showcased acting talents in notable films including "Atrangi Re," "Raksha Bandhan," and "Dunki."
- Engaged in Theatre for 4 years, securing victories at competitions in IIT Delhi and IIT Kanpur.
- Hobbies: Acting, Scripting, Cinematography.
